

1951 No. 1

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

## BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 6th JANUARY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## SPECIAL NOTE

The meteorological information in Table VIII has been modified slightly and now includes a record of atmospheric pollution.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available :—

**Monthly** (a) Deaths from smallpox—about the fourth week following the month.

**Quarterly** (a) Numbers and rates of live births, stillbirths, *total* deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return).

(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.

**Annual** Numbers and rates of live births, stillbirths, *total* deaths, and deaths of infants under one year of age—about the third week in January.

Death rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Measles

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1947-48 and 1946-47. (See also Table IV).

Week Ended	Nov. 25	Dec. 2	Dec. 9	Dec. 16	Dec. 23	Dec. 30	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3

\* Not corrected for revision of diagnosis.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:*—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.

† Glasgow ... ..	449	9	470	34	—	1	—	29	8	—	33	1
‡ Belfast ... ..	157	?	205	12	—	—	—	8	8	—	28	2
‡ Dublin ... ..	191	?	179	9	—	2	—	8	—	—	14	—

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

¶ Including 1 death from Smallpox.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 6th January, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Disease in { England and Wales, Administrative  
the week ended 6th January, 1951. Areas and Port Health Districts.

(See Notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.	Whooping cough.	Diphtheria.	Measles, excluding rubella.	Acute pneumonia (primary or influenza).	A	B	Meningococcal infection. \* See note (3).

† During this week the local offices of the Ministry of National Insurance were closed for one or more days.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify for sickness benefit under the National Insurance Act without limit of income, including the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

TABLE VII.—Air Temperature and Rainfall in  
the week ended 6th January, 1951.

#### Daily Notes

Sunday—Overcast until mid-morning, with intermittent light snow, then cloudy. Mist from mid-morning to mid-evening. Light rain late evening. Fresh SSE—S winds 23.15h.—24h.

Monday—Cloudy, but overcast about noon, and in evening; fair mid-afternoon. Light rain, sleet and snow; moderate in morning until about mid-day. Fog in morning, thick 11h.—11.35h., until early afternoon.

Tuesday—Overcast with light sleet early, and light to moderate snow until mid-day. Light to moderate rain in evening. Fog in morning, and mist until mid-afternoon.

Wednesday—Cloudy early and late; fair morning, afternoon and early evening.

Thursday—Cloudy with light to moderate rain and drizzle early morning. Light to moderate rain afternoon and evening. Mist in afternoon. Fresh S winds 04h.—06.10h.

Friday—Cloudy with rain most of day. Mist in evening. Fresh to strong SSW winds 09.45—50h., 11.30—45h., 12.40—45h., 15h.—15.15h.

Saturday—Cloudy, with light rain early, and light to moderate in morning. Intermittent light rain in afternoon moderate to heavy late; heavy rain at 22.50h. Fresh to strong S—SSW—SW winds 15.10—35h., 17.05—50h., 1900—50h.

The reading of the barometer fell from 1004.1 at the beginning of the week to 979.0 at 05.50 on 2nd, rose to 1010.6 at 20.00h. on 3rd, then fell again to 994.9 by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic centimetre) in columns 12, 13 and 14.

1951 No. 2

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 13th JANUARY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## Smallpox

There were no deaths from smallpox registered during the month of November.

## ENGLAND AND WALES

**BIRTHS AND DEATHS** registered in the Quarter ended 31st December, 1950, and in the year 1950, with comparative figures for three earlier years. (The customary analysis will appear in the Quarterly Return in due course).

			LIVE BIRTHS		STILLBIRTHS		DEATHS (including non-civilians)		DEATHS OF INFANTS under 1 year

\* Not corrected for revision of diagnosis.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 13th January, 1951, with totals from the first week of the year to date.** } London.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Disease in { England and Wales, Administrative  
the week ended 13th January, 1951. { Areas and Port Health Districts.

(See Notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note (3).

† During this week the local offices of the Ministry of National Insurance were closed for one or more days.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

Sunday—Cloudy early, becoming fine at 09h., then fair to cloudy rest of day except for fine period about 18h. Fresh W—WSW—W winds from 0h.—05.30h., 10.30h.—15.15h.

Monday—Cloudy most of day except for fair period about 18h. Continuous light to moderate rain from morning until early evening; intermittent light rain in evening. Fog in late afternoon.

Tuesday—Fair most of day, but cloudy in afternoon and early evening. Intermittent light rain in evening; rain in late afternoon and early evening. Frost in morning.

Wednesday—Mainly cloudy, but fine at 06h., and fair in early evening. Intermittent light rain early and at mid-day; continuous light to moderate in afternoon. Mist in late afternoon; frost in morning.

Thursday—Cloudy most of day, becoming fair by about 21h. Light to moderate rain early until mid-afternoon; light rain in evening. Fresh to strong winds (SSW):—02.50h.—08h.; 08.55h.—12.10h.

Friday—Fair most of day, but cloudy in afternoon and early evening. Light shower in morning, light to moderate showers afternoon and evening. Fresh to strong S—SSW—S winds:—11.40h.—17h. Frost in morning.

Saturday—Fair to cloudy most of day, becoming cloudless in evening. Fresh SSW—W winds 03.15h.—19.15h. ID in evening.

The reading of the barometer rose from 997.4 mbs. at the beginning of the week to 1012.3 mbs. at 19.00h. on 10th, then fell to 984.1 mbs. by 16.50h. on 12th, and rose to 1001.6 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ending 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

¶ Including 1 death from Smallpox.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 20th January, 1951, with totals from the first week of the year to date.** London.

(See Notes on page 2).

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Disease in { England and Wales, Administrative  
the week ended 20th January, 1951. Areas and Port Health Districts.**

(See Notes on page 2).

*Note:—*Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.		Whooping cough.		Diphtheria.	Measles, excluding rubella.		Acute pneumonia (primary or influenza).		A	B	Meningococcal infection, D		Acute polio-myelitis EF		Acute enceph-GK alitis		H	I	J	L	M	N	C	O	P	R	S		
										Cholera.	Plague.		Paralytic	E	Non-paralytic	F	Infective	G	Post Infectious	K	Typhus fever.	Relapsing fever.	Continued fever. (London only).	Dysentery.	Ophthalmia neonatorum.	Puerperal pyrexia and Puerperal fever.	Smallpox.	Paratyphoid fever.	Typhoid fever.	Food poisoning.

\* See note (3).

† During this week the local offices of the Ministry of National Insurance were closed for one or more days.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

Sunday—Fine early, becoming fair in morning and for period around 18h., otherwise cloudy. Intermittent light rain in morning, light to moderate in afternoon, continuous to moderate near midnight. Frost in morning.

Monday—Cloudy early, fair to cloudy during day, and fine later. Continuous light to moderate rain early. Fresh to strong WNW—NW winds 13.35h.—15.05h. Frost in evening.

Tuesday—Fine early, but cloudy rest of day. Light rain in afternoon, intermittent light drizzle in evening, then light to moderate continuous rain, heavy at 23.15h., 23.40h. Frost in morning.

Wednesday—Cloudy, until mid-afternoon, then fair until early evening, becoming fine. Light rain in morning, heavy at 11.10h., and shower in early afternoon. Fresh to strong SW winds 08h.—09h.

Thursday—Fair early, cloudy until early evening, then fine. Light and moderate showers in afternoon; squall at 16.40h. Fresh to strong WSW—WNW winds 02h.—06h., 11.45h.—12.30h., 16.30—50h., 19h.—19.30h.

Friday—Cloudy all day with intermittent light drizzle in afternoon.

Saturday—Cloudy all day.

The reading of the barometer rose from 1001.6 mbs. at the beginning of the week to 1032.1 mbs. at 10.20h. on 16th, fell to 1005.5 mbs. by 05.20h. on 18th, then rose to 1020.6 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 4

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

## BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 27th JANUARY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE  
1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

\* 96 Great Towns. † 107 Great Towns. ‡ 118 Great Towns. § 126 Great Towns.

**NOTE:**—The latest table showing notifications of measles and the quarterly estimates of births in England and Wales appear on page 19.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 27th January, 1951, with totals from the first week of the year to date.** } London.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Disease in { England and Wales, Administrative  
the week ended 27th January, 1951. Areas and Port Health Districts.

(See Notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note (3).

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

### Estimates of Births. England and Wales.

- (a) Final estimate of live births to be expected in the quarter ending 31st March, 1951 .. .. . 178,000
- (b) Provisional estimate of live births to be expected in the quarter ending 30th June, 1951 .. .. . 175,000

In the above estimates regard has been had to (1) sample returns of the number of special ration books issued to expectant mothers by the Ministry of Food, and (2) the recent trend of registered live births. The sample comprises some 200 Food Office areas containing about 25 per cent. of the population.

#### Daily Notes

Sunday—Cloudy, with overcast period and light drizzle at 09h.

Monday—Cloudy, with light rain in early morning. Dew in evening.

Tuesday—Cloudy, with period of intense gloom from 16h.—17h. Light to moderate rain early; intermittent light rain afternoon and evening.

Wednesday—Cloudy, except for fair period in afternoon. Light to moderate rain early morning. Fresh E wind. 09h.—15.15h., 18.30h.—19.20h.

Thursday—Cloudy, with intermittent light rain about 09h.

Friday—Cloudy. Moderate rain in morning, light to moderate in afternoon, and light in evening.

Saturday—Fine until early afternoon, fair until mid-evening, then fine. Frost morning and evening.

The reading of the barometer rose from 1020.6 mbs. at the beginning of the week to 1022.5 mbs. at 11.20h. on 21st, fell to 998.8 mbs. at 15.35h. on 27th, then rose to 1003.0 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

\* 96 Great Towns. † 107 Great Towns. ‡ 118 Great Towns. § 126 Great Towns.

The diagram below shows for Great Towns of England and Wales the death rates (per million persons living) from Influenza in the peak week of selected epidemics. In 1918/19 there were three waves of the epidemic, the first reaching its peak in July, 1918, the second in November, 1918, and the third in February, 1919. All three peaks are shown in the diagram. The figures for the first wave relate to England and Wales.

The figures for 1950/51 relate to the latest week available which will not necessarily be the peak of the epidemic.

Note:—Further comment on the comparison between the current and previous epidemics is contained in an article published in "The Lancet," 3rd February, page 284/5.

For **NOTES** see page 19.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 3rd February, 1951, with totals from the first week of the year to date.** } **London.**

(See Notes on page 2).

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

(See Notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note (3).

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

§ Figures not available.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## Measles

The table showing weekly notifications of measles will be resumed next week.

#### Daily Notes

Sunday—Fine all day, except for fair periods in late afternoon and early evening. Fog in late morning, early afternoon and evening. Frost morning and evening.

Monday—Overcast with fog all day, except for fine period around 08h. Thick fog 08h.—10.45h., 17h.—24h. Frost lying all day.

Tuesday—Overcast with thick fog until about 11h., becoming fine to fair and cloudy later. Frost morning and evening.

Wednesday—Cloudy until about 10h., then fair until about 14h., then fine. Fog in late evening. Frost in evening.

Thursday—Cloudy all day, except for short fine period around 18h. Intermittent light drizzle in early afternoon. Frost in morning and dew in evening.

Friday—Cloudy all day. Light drizzle early morning; heavy rain 06.20h.; intermittent light rain later; and light rain in evening.

Saturday—Cloudy all day. Continuous light and moderate rain morning and afternoon. Fresh N wind at 17.15h.

The reading of the barometer rose from 1003.0 mbs. at the beginning of the week to 1024.3 mbs. at 22h. on 29th, then fell to 1012.6 mbs. by 03h. on 31st, rose to 1022.4 mbs. at 11h. on 1st, and fell to 993.4 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 10th February, 1951, with totals from the first week of the year to date. } London.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 10th February, 1951. Areas and Port Health Districts.**

(See Notes on page 2).

*Note:—*Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	I																										
	Scarlet fever.	Whooping cough.	Diphtheria.	Measles, excluding rubella.	Acute pneumonia (primary or influenza).	A	B	Meningococcal infection.	D	Acute polio-myelitis		Acute enceph-alitis		H	I	J	L	M	N	C	O	P	R	S			
										Paralytic	E	Non-paralytic	F	Infective	G	Post Infectious	K	Typhus fever.	Relapsing fever.	Continued fever. (London only).	Dysentery.	Ophthalmia neonatorum.	Puerperal pyrexia and Puerperal fever.	Smallpox.	Paratyphoid fever.	Typhoid fever.	Food poisoning.

\* See note (3).

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

Sunday—Cloudy, except for short fair period in early evening. Continuous light rain early; continuous moderate rain from 05.30h. until mid-afternoon; showers late evening. Fresh to strong S wind 06h.—24h. Gusts more than 54 m.p.h. at 21.30h. (S), 22.10h. (SSW).

Monday—Cloudy until mid-evening then fair. Showers morning and afternoon. Fresh to strong SSW—W wind 0h.—04h., 14h.—15h. Gusts more than 38 m.p.h. at 0h.—04h., 14.10h. (SSW).

Tuesday—Cloudy to fair becoming fine late. Light rain and drizzle at 09h. Distant thunder and lightning with moderate shower late afternoon. Frost in morning. Fresh SW wind at 17.10h.

Wednesday—Mainly cloudy, but fair during afternoon. Light rain early morning and in evening. Fresh S wind at 20.30h. Frost in morning.

Thursday—Cloudy with continuous light to moderate rain and drizzle most of the day. Mist in afternoon. Fresh SSW wind 0h.—03.30h.; SSW 05h.—11.30h.

Friday—Cloudy until afternoon then fair periods becoming fine in evening. Continuous moderate and heavy rain early morning; light to moderate until 11.20h. Fresh SW—SSW wind 08h., 09.45h. 15h.—16h.

Saturday—Cloudy. Overcast with fog mid-morning to early afternoon. Fresh E. wind 18.45h.—24h. Frost in morning.

The reading of the barometer fell from 993.4 mbs. to 961.2 mbs. at 22h. on the 4th and rose to 1000.2 mbs. at 16h. on the 7th and fell to 986.5 mbs. at 17h. on 8th and rose to 1010.0 mbs. by 11h. on 10th and fell to 1006.4 mbs. by 24h.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 7

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 17th FEBRUARY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE  
1951

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

**Monthly** Deaths from smallpox—about the fourth week following the month.

**Quarterly** (a) Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return).  
(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.

**Annual** Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under one year of age—about the third week in January.  
Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Measles.

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1947-48 and 1946-47. (See also Table IV).

\* Not corrected for revision of diagnosis.

Note:—The table showing Deaths from influenza in Great Towns appears on page 19.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.*

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 17th February, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

7

TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 17th February, 1951. { Areas and Port Health Districts.

(See Notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the “Others” column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

(b) New claims to injury benefit.												
Week ended:—												
Feb. 13	13,400	2,100	2,100	1,500	1,400	1,200	500	1,200	800	400	500	1,000

\* See note (3).

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

**TABLE VII.—Air Temperature and Rainfall in the week ended 17th February, 1951.**

**Certain Great Towns in England and Wales and four Scottish and Irish Towns.**

#### Daily Notes

Sunday—Cloudy until mid-evening, then fair. Continuous moderate rain in morning, continuous light at mid-day, and in early afternoon. Fog late morning and early afternoon. Fresh E winds 0—02h., 06h. and 09.45h.

Monday—Fair early, then cloudy to fair, becoming fine late. Fog in late afternoon, thick fog 22h. Frost in morning, dew in evening.

Tuesday—Overcast with fog early, then cloudy. A short fall of soft ice at 10h. Light drizzle and light to moderate rain afternoon and evening. Fresh NNE wind at 22h.

Wednesday—Cloudy. Continuous moderate and light rain in morning, light rain in early afternoon. Fresh N wind 0—06h., 09.30h.—14h.

Thursday—Generally cloudy, fair late. Moderate and light rain early. Fog morning and evening. Frost in evening.

Friday—Generally cloudy. Continuous light and moderate rain in morning, light in early afternoon. Heavy showers late afternoon, with distant thunder and lightning. Fresh S—SSW winds 07h.—15h.

Saturday—Cloudy until early evening, then fine. Continuous light to moderate rain morning and afternoon, heavy at 08.30h. A squall at 15.50h., with heavy rain and hail. Gusts greater than 38 m.p.h. 15.50h., 20.40h. (SW).

The reading of the barometer fell from 1006.4 mbs. to 1003.0 mbs. by 13h. on the 11th, rose to 1011.1 mbs. by 11h. on the 15th, fell to 996.6 mbs. by 13.45h. on the 17th, rose to 1003.7 mbs. by 24h.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

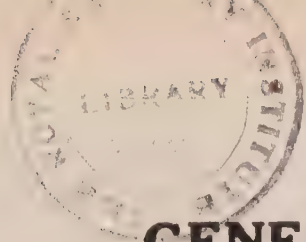

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 8

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 24th FEBRUARY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Smallpox

There were no deaths from smallpox registered during the month of December.

## Measles.

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1947-48 and 1946-47. (See also Table IV).

\* Not corrected for revision of diagnosis.

Note:—The table showing Deaths from influenza in Great Towns appears on page 19.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.

Week ended:—	Dec. 16	Dec. 23	Dec. 30	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Totals from 1st Week of year, in Great Towns <i>ONLY</i>

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 24th February, 1951. { Areas and Port Health Districts.**

(See Notes on page 2).

*Note:—*Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.		Whooping cough.		Diphtheria.		Measles, excluding rubella.		Acute pneumonia (primary or influenzal).		A	B	Meningococcal infection, D		Acute polio-myelitis EF		Acute enceph-alitis GK		H	I	J	L	M	N C	O	P	R	S			
											Cholera.	Plague.		Paralytic	E	Non-paralytic	F	Infective	G	Post Infectious	K	Typhus fever.	Relapsing fever.	Continued fever. (London only).	Dysentery.	Ophthalmia neonatorum.	Puerperal pyrexia and Puerperal fever.	Smallpox.	Paratyphoid fever.	Typhoid fever.	Food poisoning.

*1950 Jan.	154,900	16,900	16,000	26,600	12,100	15,200	8,200	19,900	14,100	6,500	8,600	10,600

**(b) New claims to injury benefit.**

Week ended:—												
Feb. 20	13,100	2,100	2,000	1,500	1,400	1,200	500	1,000	800	400	500	1,700

\* See note (3).

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

**TABLE VII.—Air Temperature and Rainfall in the week ended 24th February, 1951.**

**Certain Great Towns in England and Wales and four Scottish and Irish Towns.**

#### Daily Notes

Sunday—Fine to fair early; cloudy rest of day. Light showers in morning and afternoon; moderate to light rain in evening. Fresh to strong SW—SSW winds 07h.—21h. Gusts more than 38 m.p.h.:—08.10h., 10.15h., 10.55h., 11.50h.—13.55h., 16.45h. (SW).

Monday—Cloudy, then fair to fine rest of day. Fresh to strong WSW winds 12h.—17h.; gusts more than 38 m.p.h.:—13h., 13.05h., 13.40h., 14.45h. (WSW). Light to moderate rain early; slight shower in afternoon.

Tuesday—Cloudy, except for fair period in late afternoon and early evening. Continuous light and moderate rain in morning, afternoon and evening. Heavy rain at 06.20h., 22.40h., 23.35h. Gusts more than 38 m.p.h.:—10.10—50h., 11.20h., 11.55h.—12.15h. (S—SSW).

Wednesday—Cloudy early, then fair to cloudy during day, then fine. Moderate rain early; light and moderate shower in afternoon. Fresh WSW wind 09h.—16h. Dew in evening.

Thursday—Cloudy, except for fair period 09.15h.—11h.; fine late evening. Light rain early; light showers in afternoon. Fresh W wind 11h.—16h.

Friday—Fair to cloudy during day; fine in evening. Intermittent light rain in morning. Dew in morning.

Saturday—Cloudy. Moderate to light rain early; heavy at 05.40h. Light showers in morning; light to moderate showers in afternoon; moderate rain later.

The reading of the barometer fell from 1003.7 mbs. at the beginning of the week to 990.9 mbs. at 03.40h. on 19th; rose to 1001.7 mbs. at 23.40h. on 19th; fell to 979.1 mbs. at 01.40 on 21st; rose to 1010.4 mbs. by 11h. on 23rd and fell to 1005.7 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 9

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 3rd MARCH, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE  
1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Measles.

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1944-45 and 1942-43. (See also Table IV).

Week Ended	Dec. 23	Dec. 30	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31

\* Not corrected for revision of diagnosis.

Note:—A table showing death rates from influenza in the Great Towns by regions, appears on page 19.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.*

Week ended:—	Dec. 23	Dec. 30	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Totals from 1st Week of year, in Great Towns <i>ONLY</i>

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 3rd March, 1951, } London.**  
**with totals from the first week of the year to date.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 3rd March, 1951. { Areas and Port Health Districts.**

(See Notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note (3).

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

TABLE VII.—Air Temperature and Rainfall in  
the week ended 3rd March, 1951.

Certain Great Towns in England and  
Wales and four Scottish and Irish Towns.

#### Daily Notes

Sunday—Cloudy all day, but fair in late evening. Moderate to light rain early; light rain in morning.

Monday—Fine early, becoming fair, then cloudy at 09h. for rest of day. Light drizzle, continuous light and moderate rain afternoon and evening. Mist early evening; frost in morning.

Tuesday—Fair early. Cloudy most of day, becoming fair to fine late. Intermittent light rain early; light shower in afternoon. Fog mid-evening; thick fog late. Frost in evening.

Wednesday—Overcast with thick fog early. Cloudy to fair, with fog until mid-day. Fine in afternoon and early evening, then fair. Fog again late afternoon becoming thick late. Frost in morning; dew in evening.

Thursday—Overcast until mid-day, then cloudy. Thick fog early; fog during day and mist in evening. Frost in morning.

Friday—Overcast, becoming cloudy to fair, and fine late. Fog from about 07h. until early afternoon; thick in morning. Continuous light to moderate rain morning and early afternoon. Intense gloom 12.25h.—12.40h.

Saturday—Cloudy most of day, but fine about 18h. Fresh ENE—NE winds 20.50h.—22.35h.

The reading of the barometer rose from 1005.7 mbs. at the beginning of the week to 1017.9 mbs. by 24h. on 25th; fell to 1010.2 mbs. by 23h. on 26th; rose to 1028.6 mbs. by 11h. on 1st; fell to 1022.5 mbs. by 15.15h. on 2nd; and rose to 1029.4 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 10

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 10th MARCH, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.														
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics <i>see</i> the Registrar General's Quarterly Return).														
	(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.														
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.														

## Measles.

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1944-45 and 1942-43. (See also Table IV).

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate, e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 10th March, 1951, with totals from the first week of the year to date.** } London.

(See Notes on page 2).

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 10th March, 1951. Areas and Port Health Districts.

(See notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the “Others” column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employees under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

Sunday—Cloudy in morning, fair at mid-day, fine in afternoon, becoming overcast late. Mist morning and afternoon; fog in evening.

Monday—Overcast until mid-morning; generally cloudy rest of day. Fog until mid-day; thick 05h.—10.30h.; mist until late evening.

Tuesday—Cloudy, becoming fair in evening. Intermittent light rain in morning; continuous moderate to light rain in afternoon; heavy at 12.15h. Mist in morning; dew in evening.

Wednesday—Cloudy most of day, but fine mid-evening. Intermittent light rain early, and in morning and afternoon. Mist late afternoon and early evening. Dew in evening.

Thursday—Fair early, then cloudy rest of day. Light drizzle in evening; light rain late. Mist morning and evening. Frost in morning. Fresh to strong ENE—NNE winds 09.35h.—24h.

Friday—Cloudy. Moderate to light rain early; sleet in morning; light rain and sleet in afternoon; continuous light drizzle late afternoon to end of day. Mist mid-afternoon until midnight. Fresh NNE—NE winds 0h.—16h.

Saturday—Overcast all day. Sleet in morning then continuous light rain for rest of day. Mist in morning; fog early afternoon, thick in mid-afternoon, clearing to mist late.

The reading of the barometer fell from 1029.4 mbs. at the beginning of the week to 995.9 mbs. at 09.40h. on 7th; rose to 1001.9 mbs. by 19.10h. on 9th; then fell to 995.1 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics <i>see</i> the Registrar General's Quarterly Return).
	(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Measles.

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1944-45 and 1942-43. (See also Table IV).

\* Not corrected for revision of diagnosis.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.*

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 17th March, 1951, with totals from the first week of the year to date. } London.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 17th March, 1951. { Areas and Port Health Districts.**

(See notes on page 2).

*Note:—*Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

**Sunday**—Overcast most of day. Fog from mid-morning to mid-evening; thick early afternoon. Cloudy late. Light to moderate rain early, light drizzle in morning; intermittent light and moderate rain mid-day.

**Monday**—Cloudy to fair in morning with fine period 09h., fair to cloudy rest of day. Light rain early and late. Mist early. Fresh SW—WSW winds 09.10h.—15.20h.

**Tuesday**—Generally cloudy, but fair in morning and around 18h. Intermittent light rain in morning; continuous light to moderate in afternoon and from mid-evening to end of day. Fresh ESE—SSW winds from 11.45h.

**Wednesday**—Generally cloudy; fair in afternoon. Continuous light to moderate rain early; light shower in afternoon. Fresh to strong WSW—SW winds all day.

**Thursday**—Fair early, becoming fine; cloudy period at 09h., then fair and fine late. Mist early evening. Dew morning and evening.

**Friday**—Fair early, then cloudy rest of day. Intermittent light rain in morning; continuous light drizzle in afternoon. Continuous light to moderate rain mid-afternoon to mid-evening. Mist and frost in morning; mist again early evening.

**Saturday**—Cloudy. Light rain early. Continuous light to moderate rain in morning. Light rain and drizzle afternoon and evening. Heavy at 17.20—25h. and at 18.15h. Fresh to strong SW winds 21.10h.—21.40h.

The reading of the barometer fell from 995.1 mbs. at the beginning of the week to 969.3 mbs. by 20.20h. on 13th, rose to 1012.4 mbs. by 23.40h. on 15th and fell to 989.7 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

## BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 24th MARCH, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Sixpence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those *registered* in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Measles.

Weekly notifications\* of measles in 1950-51 compared with those in the corresponding weeks in 1949-50, 1948-49, 1944-45 and 1942-43. (See also Table IV).

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.*

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

\*\* Return not received.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 24th March, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the number is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 24th March, 1951. Areas and Port Health Districts.

(See notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

Notes: (1) Broadly, the whole of the civilian working population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

Cloudy in morning and afternoon except for fine period at 09h. Fair to cloudy in evening. Intermittent light rain early showers at mid-day; continuous light to moderate in afternoon. Gusts more than 38 m.p.h.:—01.10h.—02.10h., 02.45h. (WSW) 03h.—03.15h. (W); 04.45h. (WSW); 11.30h. (SSW); 14.20h. (SW); dew in evening.

Monday—Fair early, then cloudy. Light to moderate rain most of day; heavy at 02.10—20h., 02.45h., 02.55h.—03.05h. 07.15—20h., 07.35h., 15.05—35h. Period of gloom, with fog and light rain from 14.30h.—15h.

Tuesday—Cloudy early and late and at 09h; otherwise fair to fine. Frost in morning; lunar halo at 21h.

Wednesday—Generally cloudy, but fair for a period during morning. Continuous light to moderate rain from early evening to midnight. Frost in morning.

Thursday—Cloudy all day. Moderate to light rain early. Fresh to strong SSW—WSW winds 12h.—17h.; gusts more than 38 m.p.h.:—00.15h. (SSW); 14.45h. (WSW).

Friday—Cloudy, becoming fine by mid-evening. Continuous light to moderate rain afternoon and early evening; heavy 17.30—45h. Mist in afternoon. Gusts more than 38 m.p.h.:—07.10—35h., 08.50h., 10.05h., 12.50h., 13.00h., 13.20—30h. 14.10h., 17.45h., 18.00—05h., 20h. (SW).

Saturday—Fair most of day and fine late, but cloudy period around 15h. Light and moderate showers at mid-day. Gusts more than 38 m.p.h.:—13.10h. (NW); 13.55h. (WNW); 15.05h.—16.20h., 17.40h. (NNW).

The reading of the barometer rose from 989.7 mbs. at the beginning of the week to 1028.8 mbs. by 07.10h. on 21st, then fell to 996.5 mbs. by 17.10h. on 23rd and then rose to 1018.7 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ending 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.														
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return).														
	(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.														
<b>Annual</b>	Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.														

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14

\* Not corrected for revision of diagnosis.

The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See Notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g. in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 31st March, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in { England and Wales, Administrative  
the week ended 31st March, 1951. { Areas and Port Health Districts.**

(See notes on page 2).

*Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.*

Notes: (1) Broadly, the whole of the civilian working population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for period of five weeks.

#### Daily Notes

Sunday—Fair to fine in morning; generally cloudy rest of day. Light rain in evening. Fresh NW winds 00.55h.—01.10h.; SW from 20.30h.—23.35h.

Monday—Cloudy, becoming fair by 12h. Intermittent light rain in morning and afternoon; drizzle in afternoon. Light and moderate showers in afternoon and evening; heavy shower 19.20h. Fresh SW winds 14.50h.—18.45h.

Tuesday—Cloudy in morning, becoming fair in afternoon, and fine in evening. Intermittent light rain morning and early afternoon. Light shower of sleet in afternoon. Fresh N winds 13.30h.—14.20h., 16.25—40h. Dew in evening.

Wednesday—Fair to fine most of day, except for cloudy period at 18h. with light shower. Fog late evening. Fresh NW winds 13.20—45h. Frost in morning; dew and frost in evening.

Thursday—Cloudy. Intermittent light rain and drizzle in morning; continuous light to moderate rain late afternoon and early evening; intermittent light drizzle most of evening; light rain late. Frost in morning and mist in evening.

Friday—Cloudy early and at 06h.; fair to fine rest of day. Continuous light rain early; slight shower of hail at 16.45h. Fresh NE winds 0h.—16.55h. Dew in evening, and mist late.

Saturday—Fair early and in evening; cloudy during day. Intermittent light rain at mid-day; continuous moderate to light in afternoon; heavy shower at 16.50h. Gusts more than 38 m.p.h.:—13.55h., 14.20h., 15.10h. (SSW). Mist early.

The reading of the barometer fell from 1018.7 mbs. at the beginning of the week to 997.7 mbs. at 19h. on 26th, rose to 1013.7 mbs. at 07.25h. on 28th, fell to 998.8 mbs. at 15.20h. on 29th; rose to 1011.5 mbs. at 01.30h. on 31st; then fell to 1003.6 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 14

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 7th APRIL, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Ninepence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under one year of age—about the third week in January. Civilian death-rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## MONTHLY STATEMENT OF DEATHS FROM SMALLPOX IN ENGLAND AND WALES

Smallpox was mentioned as a cause of death in eight entries during the month of January last. These deaths, two of which occurred in Brighton C.B. (reported in Weekly Return for weeks ended 6th and 20th January, 1951), three in Portslade by Sea U.D. and three in Dartford U.D., have been provisionally classified to smallpox.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14
<b>Year 1951</b>	21,688	18,658	15,979	15,930	16,321	21,633	24,585	27,776	29,154	29,067	31,837	27,813	31,268	28,800	
1950	2,337	2,318	2,334	2,532	3,530	4,251	4,526	4,980	4,684	5,476	5,577	5,716	6,307	5,487	7,888
1949	13,185	10,922	10,254	11,656	13,800	18,441	19,502	20,055	18,619	17,305	16,275	15,307	15,819	14,724	13,066
1945	11,947	10,979	12,054	12,941	16,039	20,627	19,167	23,216	22,480	25,049	25,266	25,507	22,183	22,599	20,342
1943	14,210	12,379	11,851	12,642	15,403	17,349	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE 1.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note*:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Diseases in England and Wales, Administrative Areas and Port Health Districts.  
the week ended 7th April, 1951.

(See notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.	Whooping cough.	Diphtheria.	Measles, excluding rubella.	Acute pneumonia (primary or influenza).	Cholera.	A	B	Meningococcal infection D	Paralytic E	Non-paralytic F	Acute polio-myelitis EF	Infective G	Post Infectious K	Acute enceph-alitis GK	Typhus fever.	H	Relapsing fever.	I	Continued fever. (London only).	J	Dysentery.	L	Ophthalmia neonatorum.	M	Puerperal pyrexia and Puerperal fever.	N C	Smallpox.	O	Paratyphoid fever.	P	Typhoid fever.	R	Food poisoning.	S

Apr. 3	12,000	1,800	1,800	1,500	1,200	1,000	500	1,000	800	400	500	1,600

Notes: (1) Broadly, the whole of the civilian working population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income; including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

#### Daily Notes

Sunday—Cloudy most of day, but fair early and in afternoon. Intermittent light rain in morning; heavy shower and squall 10.20h.; light shower in afternoon; heavy at 16.45h.; light rain late. Gusts more than 38 m.p.h.:—10.20h., 14.45h., 15.25., 15.50—55h., 16.10h. (SW).

Monday—Cloudy early, then fair to fine rest of day, except for cloudy period at 18h. Light rain early and light shower in afternoon. Fresh WSW—NW winds 09.55h.—10.40h., 11.20—35h., 12.50h.—13.10h.

Tuesday—Fair most of day, but cloudy periods at 06h., in afternoon, and early evening. Light showers early. Fresh SW winds 16.30h.—17.25h., 18.15—25h. Dew in morning.

Wednesday—Cloudy in morning and early afternoon, becoming fair to fine. Continuous light to moderate rain and light drizzle most of morning; heavy at 11.55h. Gusts more than 38 m.p.h.:—05.15h., 06.55h. (SSW); 08.45—55h. (SW).

Thursday—Fair to fine most of day with cloudy period at mid-day. Frost in morning; dew and mist in evening.

Friday—Cloudy. Continuous rain most of day, but intermittent in late morning and early afternoon. Fresh SSW winds 11.00h.—20.55h.

Saturday—Generally cloudy, but fair around mid-day. Light to moderate rain early and late; light and moderate showers morning, afternoon, and evening; heavy with hail and thunder at 11.15h. Gusts more than 38 m.p.h.:—13.30 (SSW) 19.40 (W).

The reading of the barometer fell from 1003.6 mbs. at the beginning of the week to 996.6 mbs. at 16.10h. on 1st; rose to 1020.6 mbs. by 10.50h. on 5th; fell to 992.4 mbs. by 12.15h. on 7th; then rose to 996.2 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

BIRTHS AND DEATHS,  
INFECTIOUS DISEASES,  
WEATHER

WEEK ENDED

SATURDAY, 14th APRIL, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Ninepence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## ENGLAND AND WALES

BIRTHS AND DEATHS registered in the Quarter ended 31st March, 1951, with comparative figures for the first Quarters of three earlier years. (The customary analysis will appear in the QUARTERLY RETURN in due course).

First Quarter of:—	LIVE BIRTHS.		STILLBIRTHS.		DEATHS (including non-civilians).		DEATHS OF INFANTS UNDER 1 YEAR.	
	Number.	per 1,000 total population.	Number.	per 1,000 total live & stillbirths	Number.	per 1,000 total population.	Number.	per 1,000 related live births.
1951 .. ..	176,299	16.3	4,259	23.6	205,771	19.0	6,530	38.2
1950 .. ..	180,062	16.7	4,223	22.9	151,176	14.0	6,537	36.8
1949 .. ..	186,611	17.3	4,446	23.3	161,265	14.9	7,532	40.4

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Jan. 6	Jan. 13	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14
Year 1951	21,688	18,658	15,979	15,930	16,321	21,633	24,585	27,776	29,154	29,067	31,837	27,813	31,268	28,800	22,644
1950	2,337	2,318	2,334	2,532	3,530	4,251	4,526	4,980	4,684	5,476	5,577	5,716	6,307	5,487	7,888
1949	13,185	10,922	10,254	11,656	13,800	18,441	19,502	20,055	18,619	17,305	16,275	15,307	15,819	14,724	13,066
1945	11,947	10,979	12,054	12,941	16,039	20,627	19,167	23,216	22,480	25,049	25,266	25,507	22,183	22,599	20,342
1943	14,210	12,379	11,851	12,642	15,403	17,349	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.*

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 14th April, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 14th April, 1951. } Areas and Port Health Districts.**

(See notes on page 2).

*Note:—*Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.	Whooping cough.	Diphtheria.	Measles, excluding rubella.	Acute pneumonia (primary or influenzal).	A	B	Meningococcal infection	D	Paralytic E	Non-paralytic F	Infective G	Post Infectious K	Typhus fever.	H	I	J	L	M	N	O	P	R	S
										Acute polio-myelitis EF		Acute enceph-alitis GK								Puerperal pyrexia and Puerperal fever.

\* See note 3.

Notes: (1) Broadly, the whole of the civilian working population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class or "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

#### Daily Notes

Sunday—Cloudy early, becoming fair, cloudy again morning and evening, but fair in afternoon. Light showers late afternoon and evening; continuous light to moderate rain late. Fresh SW winds:—09.35h., 17.05h., 18.15—50h., 20.05—22h., 20.30—45h.

Monday—Generally cloudy during day except for fair period in early morning; fine late. Continuous light to moderate rain early, heavy at 01.45h., then light showers. Light drizzle and rain morning, afternoon, and early evening.

Tuesday—Fine early, fair in morning and afternoon, cloudy at mid-day and in evening. Light and moderate showers afternoon and early evening; heavy with hail and thunder at 12.03h. (SW).

Wednesday—Fair most of day, becoming cloudy late. Frost in morning and lunar corona in evening.

Thursday—Generally cloudy. Intermittent light rain morning, afternoon, and late evening. Gusts more than 38 m.p.h.:—08.45h., 09.50h.—12.10h., 13.55h., 14.50h., 15.00h., 15.30h., 16.30h., 17.10h., 18.05h., 19.50h., 20.10h., 22.05h.—23.15h.

Friday—Cloudy most of morning, then fair except for cloudy period at 18h. Continuous light to moderate rain early, heavy at 02.10—15—20—30h., 04.00h., 04.15h. Heavy shower 12.10h.; with hail 12.50h. and in evening. Gusts more than 38 m.p.h.:—00.05h., 00.10h. (SW), 16.35h. (W).

Saturday—Fair most of day; cloudy at mid-day and early afternoon. Light showers morning and early afternoon. Light hail shower 11.15h.; sleet 14.05h. Fresh WNW—NNW winds 08.25h.—09.35h., 11.45h.—12h., 13.00—05h., 13.25h.—16.10h.

The reading of the barometer rose from 996.2 mbs. at the beginning of the week to 1001.9 mbs. at 12.55h. on 8th, fell to 985.0 mbs. at 10.00h. on 9th, rose to 1019.1 mbs. at 12.50h. on 11th, fell to 1003.0 mbs. at 03.00h. on 13th, then rose to 1026.5 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 21st APRIL, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Ninepence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available :—

**Monthly** Deaths from smallpox—about the fourth week following the month.

**Quarterly** (a) Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return).

(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.

**Annual** Numbers and rates of live births, stillbirths, total deaths, and deaths of infants under one year of age—about the third week in January.

Civilian death rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28
Year 1951	15,979	15,930	16,321	21,633	24,585	27,776	29,154	29,067	31,837	27,813	31,268	28,800	22,644	19,025	
1950	2,334	2,532	3,530	4,251	4,526	4,980	4,684	5,476	5,577	5,716	6,307	5,487	7,888	6,805	6,380
1949	10,254	11,656	13,800	18,441	19,502	20,055	18,619	17,305	16,275	15,307	15,819	14,724	13,066	13,514	11,436

1943	11,851	12,642	15,403	17,349	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859	13,667	13,204

\* Not corrected for revision of diagnosis.

+ The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.*

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 21st April, 1951, } London.  
with totals from the first week of the year to date.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 21st April, 1951. } Areas and Port Health Districts.

(See notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the “Others” column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note 3.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

TABLE VII.—Air Temperature and Rainfall in  
the week ended 21st April, 1951.

Certain Great Towns in England and  
Wales and four Scottish and Irish Towns.

#### Daily Notes

Sunday—Fine early and late, but cloudy during day. Fresh SW—SSW winds 10.30h.—18.55h. Frost in morning.

Monday—Fair early, becoming cloudy until mid-afternoon, then fair and fine late. Intermittent light rain in morning and continuous light drizzle in afternoon. Fresh SSW—W winds 02.25h.—10.25h., 11.50h.—12.15h., 14.05—25h., 16.25h.—17.10h.

Tuesday—Fine during day, becoming fair by mid-evening. Frost in morning.

Wednesday—Fair early, then cloudy rest of day. Dew in morning and haze in evening.

Thursday—Cloudy early; generally fair during day with cloudy period at 18h. Fresh E winds 12.20h.—23.05h.; gusts more than 38 m.p.h.:—16.30h.

Friday—Fair early and during morning; fine rest of day.

Saturday—Fine early, becoming cloudy until 07.30h., then fair rest of morning and fine until end of day. Fresh E—ESE winds :—12.40h.—14.30h., 15.40h.—21.10h.

The reading of the barometer fell from 1026.5 mbs. at the beginning of the week to 1015.5 mbs. at 16.10h. on 16th; then rose to 1023.7 mbs. at 09.30h. on 17th; fell to 1012.6 mbs. at 17h. on 18th and rose to 1025.8 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

BIRTHS AND DEATHS,  
INFECTIOUS DISEASES,  
WEATHER

WEEK ENDED

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available :—

**Monthly** Deaths from smallpox—about the fourth week following the month.

**Quarterly** (a) Numbers and rates of live births, stillbirths, *total* deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return).

(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.

**Annual** Numbers and rates of live births, stillbirths, *total* deaths, and deaths of infants under one year of age—about the third week in January.

Civilian death rates from Tuberculosis and Cancer and also Maternal Mortality—about the end of April.

## MONTHLY STATEMENT OF DEATHS FROM SMALLPOX

Smallpox was mentioned as a cause of death in two entries during the month of February last. These deaths, which occurred in Dartford M.B., have been provisionally classified to smallpox.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Jan. 20	Jan. 27	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28
Year 1951	15,979	15,930	16,321	21,633	24,585	27,776	29,154	29,067	31,837	27,813	31,268	28,800	22,644	19,025	18,006
1950	2,334	2,532	3,530	4,251	4,526	4,980	4,684	5,476	5,577	5,716	6,307	5,487	7,888	6,805	6,380
1949	10,254	11,656	13,800	18,441	19,502	20,055	18,619	17,305	16,275	15,307	15,819	14,724	13,066	13,514	11,436
1945	12,054	12,941	16,039	20,627	19,167	23,216	22,480	25,049	25,266	25,507	22,183	22,599	20,342	15,901	16,023
1943	11,851	12,642	15,403	17,349	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859	13,667	13,204

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

Week ended:—	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28	Totals from 1st Week of year, in Great Towns <i>ONLY</i>

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

\*\* Returns not received.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 28th April, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 28th April, 1951. } Areas and Port Health Districts.

(See notes on page 2).

Note:—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.	Whooping cough.	Diphtheria.	Measles, excluding rubella.	Acute pneumonia (primary or influenzal).	A	B	Meningococcal infection D	Paralytic E	Acute polio-myelitis EF	Infective G	Post Infectious K	H	I	J	L	M	N	O	P	R	S

\* See note 3.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

#### Daily Notes

Sunday—Fine all day. Fresh E winds 02.20h.—02.35h.

Monday—Fine, becoming overcast with fog in early morning; then generally fine except for fair period at 18h. M and dew in evening.

Tuesday—Fine all day. Dew in morning and mist in evening.

Wednesday—Fog and dew early morning; fine rest of day.

Thursday—Fine early, but becoming cloudy most of day except for fair period around 09h. Intermittent light drizzle in afternoon. Dew in morning and mist in evening.

Friday—Cloudy to fair most of day; becoming fine by 21h. Light showers afternoon and evening; heavy 17.30 (hail), 17.55h., 18.00h. Fresh NNE winds 13.45h.—14h., 14.45h.—15.25h., 18.20h.—18.50h.

Saturday—Cloudy most of day but fair periods around 09h., and in afternoon and evening. Light shower at mid-day. Fresh N—NNE winds 08.10h.—09h., 10.40h.—11h., 19.40h.—19.50h.

The reading of the barometer fell from 1025.8 mbs. at the beginning of the week to 1012.7 mbs. at 18h. on 26th then rose to 1020.3 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

#### Estimates of Births. England and Wales.

(a) Final estimate of live births to be expected in the quarter ending 30th June, 1951	183,000
(b) Provisional estimate of live births to be expected in the quarter ending 30th September, 1951	173,000

In the above estimates regard has been had to (1) sample returns of the number of special ration books issued to expectant mothers by the Ministry of Food, and (2) the recent trend of registered live births. The sample comprises some 200 Food Office areas containing about 25 per cent. of the population.

#### Smallpox. England and Wales.

There were no deaths from smallpox registered during the month of March.

#### Civilian Death Rates from Tuberculosis and Cancer and Maternal Mortality—1950

Provisional death rates per million population for England and Wales during the year 1950 are as follows:—

	Males	Females	Persons
Respiratory Tuberculosis	422	227	321
Other Tuberculosis	46	40	43
Cancer	2,099	1,890	1,991

The maternal mortality (provisional) per 1,000 total live and still births based on deaths primarily classed to diseases of pregnancy, childbirth and the puerperal state as arranged in the Manual of the International List (6th revision) is as follows:—

No. 651—Abortion with sepsis	0.09
Nos. 650, 652—Other abortion	0.05
Nos. 640-649, 670-678—Complication of pregnancy and delivery	0.54
No. 681—Sepsis of childbirth and puerperium	0.03
Nos. 680, 682-689—Other complications of the puerperium	0.15

NOTE:—The latest table showing notifications of measles in England and Wales appears on page 19

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

\*\* Returns not received.

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 5th May, 1951, with totals from the first week of the year to date.** } **London.**

\* See note 3.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

#### Daily Notes

Sunday—Fair early, then generally cloudy. Light showers at mid-day, afternoon, and early evening; moderate 18.1. Fresh NW wind 11.55h.

Monday—Generally cloudy. Continuous moderate rain early; moderate shower with hail and squall 11.10h.; light showers in evening, with hail at 17.45h. Intermittent light rain late, with mist. Fresh ESE winds 11.10—20h., 17.40—45h.

Tuesday—Generally cloudy. Continuous light to moderate rain early morning; light shower in afternoon.

Wednesday—Cloudy early, then fair, becoming fine in evening. Light to moderate rain around 06h.; light shower in afternoon. Fresh S—SSW winds 06h.—06.10h., 09.30h.—17.30h.

Thursday—Fine early, then cloudy most of day, with fair periods around 09h., and late evening. Intermittent light rain in afternoon. Fresh ESE wind 14.50h.—15.25h.

Friday—Fair to cloudy early, cloudy in morning until 16h., then fair. Light to moderate continuous rain morning and afternoon, heavy at 13h. Fog morning, afternoon, and mid-evening.

Saturday—Fair early, and in early evening; otherwise cloudy. Light showers morning and afternoon; moderate 14.50h. Mist in morning; dew and mist late.

The reading of the barometer fell from 1020.3 mbs. at the beginning of the week to 1009.0 mbs. at 03.40h. on 2nd, rose to 1015.6 mbs. at 23.30h. on 2nd, fell to 1005.2 mbs. at 11h. on 4th, and then rose to 1010.6 mbs. by the end of week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 19

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 12th MAY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Ninepence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough, “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those *registered* in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics <i>see</i> the Registrar General's Quarterly Return).
	(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January.
	Civilian death rates from Tuberculosis and Cancer, Maternal Mortality and also Neo-natal Mortality—about the end of April.

## Neo-natal Mortality

The deaths of infants under 4 weeks during 1950 numbered 12,910, representing a provisional rate of 18·5 per 1,000 related live births.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Feb. 3	Feb. 10	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28	May 5	May 12

1943	15,403	17,349	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859	13,667	13,204	10,149	8,145

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note*.—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 12th May, 1951, with totals from the first week of the year to date.** } London.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 12th May, 1951. } Areas and Port Health Districts.**

(See notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note 3.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

TABLE VII.—Air Temperature and Rainfall in  
the week ended 12th May, 1951.

Certain Great Towns in England and  
Wales and four Scottish and Irish Towns.

#### Daily Notes

Sunday—Generally cloudy. Light shower in afternoon. Fresh NE—NNE winds 16.05h.—17h., 18.05h.—19.50h. Dew in morning.

Monday—Cloudy becoming fair late. Intermittent light drizzle in morning; intermittent light rain in evening. Fresh NE winds 0h.—21.30h. Dew in morning.

Tuesday—Cloudy, except for fair period in early evening. Continuous light rain early; intermittent during morning. Fresh NNE—NE winds 04.45h.—18.45h.

Wednesday—Cloudy all day, and overcast in morning. Light to moderate drizzle morning, afternoon, and evening. Fog in morning and early evening. Fresh NE winds 23.35h.—23.55h.

Thursday—Cloudy early, becoming fair in afternoon, and fine late. Slight rain at 08.10h. Fresh NE wind 02.10h.—20.25h.

Friday—Fine early and late, otherwise mainly fair. Fresh ENE—NE winds 12.50—14.50h., NE 15.55h.—17.10h.

Saturday—Fine, becoming cloudy late. Dew in morning.

The reading of the barometer rose from 1010.6 mbs. at the beginning of the week to 1015.0 mbs. by 21h on 7th, fell to 1010.7 mbs. by 04.50h. on 9th; rose to 1024.4 mbs. by 24h. on 11th and fell to 1019.8 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 20

# GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

# BIRTHS AND DEATHS, INFECTIOUS DISEASES, WEATHER

WEEK ENDED

SATURDAY, 19th MAY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

*Ninepence net*

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough; “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946. i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.														
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return).														
	(b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.														
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January.														
	Civilian death rates from Tuberculosis and Cancer, Maternal Mortality and also Neo-natal Mortality—about the end of April.														

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28	May 5	May 12	May 19	May 26
Year 1951	24,585	27,776	29,154	29,067	31,837	27,813	31,268	28,800	22,644	19,025	18,006	18,310	19,929	18,381

1949	19,502	20,055	18,619	17,305	16,275	15,307	15,819	14,724	13,066	13,514	11,436	9,217	8,363	8,478	9,583
1945	19,167	23,216	22,480	25,049	25,266	25,507	22,183	22,599	20,342	15,901	16,023	13,139	12,412	14,126	11,408
1943	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859	13,667	13,204	10,149	8,149	8,322	7,470

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods registered in the week ended 19th May, 1951, with totals from the first week of the year to date.** } London.

**(b) New claims to injury benefit.**

Week ended:—												
May 15	11,400	1,700	1,900	1,400	1,200	1,000	400	800	600	300	400	1,000

\* See note 3.

Notes: (1) Broadly, the whole of the civilian working population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

TABLE VII.—Air Temperature and Rainfall in  
the week ended 19th May, 1951.

#### Daily Notes

Sunday—Fair, then cloudy from mid-day. Dew in morning.

Monday—Mainly cloudy. Fresh North Easterly winds 00.35h.—01.15h., 01.35h.—02.05h., 05.40h.—06.20h., 11.45h.—12.20h.

Tuesday—Fair early, then cloudy all day. Continuous light drizzle in evening; light rain late.

Wednesday—Cloudy, with some fair intervals. Continuous moderate to light rain early; a light shower in afternoon. Fresh North Easterly winds 07.30h.—19.15h.

Thursday—Cloudy to fair. Light and moderate showers morning and afternoon, heavy with squall at 13h., followed by thunder and lightning. Heavy shower 15.05h. Gusts more than 38 m.p.h.:—11.45h., 11.55h., 12.10—15h., 12.20h., 12.55h. (North Easterly).

Friday—Mainly cloudy, fair for a period in morning. Light showers late afternoon and evening. Fresh North Easterly wind 06.35h.—17.25h. Gust more than 38 m.p.h.:—11.40h. (ENE).

Saturday—Mainly cloudy. Very slight rain in afternoon, continuous light to moderate rain late, heavy at 23.50h.

The reading of the barometer rose from 1019.8 mbs. at the beginning of the week to 1025.2 mbs. by 21h. on 14th, fell to 1015.6 mbs. by 04.50h. on 16th, rose to 1020.1 mbs. by 00.01h. on 18th, fell to 1009.4 mbs. by 11.50h. on 19th and rose to 1101.01 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

1951 No. 21

GENERAL REGISTER OFFICE

THE REGISTRAR GENERAL'S  
WEEKLY RETURN FOR  
ENGLAND AND WALES

BIRTHS AND DEATHS,  
INFECTIOUS DISEASES,  
WEATHER

WEEK ENDED

SATURDAY, 26th MAY, 1951

*Crown Copyright Reserved.*

LONDON: HIS MAJESTY'S STATIONERY OFFICE

1951

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough; “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics <i>see</i> the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January. Civilian death rates from Tuberculosis and Cancer, Maternal Mortality and also Neo-natal Mortality—about the end of April.

## Special Note—Survey of Sickness

Table V. Since February, 1951, persons aged less than 21 have not been interviewed. Rates for earlier periods have therefore been re-calculated and figures in the table relate only to persons aged 21 and over.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Feb. 17	Feb. 24	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28	May 5	May 12	May 19	May 26
Year 1951	24,585	27,776	29,154	29,067	31,837	27,813	31,268	28,800	22,644	19,025	18,006	18,310	19,929	18,381	19,189
1950	4,526	4,980	4,684	5,476	5,577	5,716	6,307	5,487	7,888	6,805	6,380	6,317	7,278	8,828	9,354
1949	19,502	20,055	18,619	17,305	16,275	15,307	15,819	14,724	13,066	13,514	11,436	9,217	8,363	8,478	9,583
1945	19,167	23,216	22,480	25,049	25,266	25,507	22,183	22,599	20,342	15,901	16,023	13,139	12,412	14,126	11,408
1943	18,389	20,146	19,355	20,008	19,511	19,663	19,650	18,134	16,859	13,667	13,204	10,149	8,149	8,322	7,470

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note*:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

Week ended:—	Mar. 17	Mar. 24	Mar. 31	Apl. 7	Apl. 14	Apr. 21	Apr. 28	May. 5	May. 12	May. 19	May. 26	Totals from 1st Week of year, in Great Towns <i>ONLY</i>

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to the Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 26th May, 1951, with totals from the first week of the year to date.** } **London.**

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 26th May, 1951. } Areas and Port Health Districts.**

(See notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note 3.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

#### Daily Notes

Sunday—Mainly cloudy; fair at times in morning. Continuous light to moderate rain and drizzle early. Continuous light to moderate rain in evening.

Monday—Cloudy early, then fair to fine. Intermittent light rain early.

Tuesday—Mainly cloudy, but fair early and in evening. Light to moderate rain early; light and moderate showers morning and afternoon, heavy at 13.05h. Gusts more than 38 m.p.h.—12h., 12.10—15—25h., 14.25h.—16.30h., 16.55h. (SSW).

Wednesday—Mainly cloudy, but fair early and late; light shower early; intermittent light rain morning and afternoon.

Thursday—Cloudy until about mid-day, then mainly fair. Thunderstorm in morning with moderate to heavy rain; heavy 01.20—25—45h.

Friday—Fair most of day, except for cloudy periods just after mid-day, and at 15h. Dew in morning.

Saturday—Fair early, then cloudy rest of day. Light shower in afternoon; continuous light to moderate rain until end of day. Dew in morning.

The reading of the barometer fell from 1011.0 mbs. at the beginning of the week to 1005.4 mbs. by 06.55h. on 22nd, then rose to 1016.8 mbs. by 22.55h. on 24th, then fell to 998.4 mbs. by the end of the week.

#### Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of the barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note*:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

### Corrigendum

Weekly Return, 1951, No. 18. Week ended 5th May, 1951, page 2.

The provisional death rate from cancer per million population in England and Wales during the year 1950 given as

	<i>Males.</i>	<i>Females.</i>	<i>Persons.</i>
	2,099	1,890	1,991
<i>should read</i>	2,058	1,840	1,946

The latter figures include deaths from Hodgkin's disease, leukaemia and aleukaemia, i.e., Nos. 201 and 204 of the International Statistical Classification of Diseases, Injuries and Causes of Death. The provisional death rates for cancer excluding Hodgkin's disease, leukaemia and aleukaemia in 1950, which are comparable with cancer death rates published for earlier years are :—

<i>Males.</i>	<i>Females.</i>	<i>Persons.</i>

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to 1: Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

**TABLE III.—Deaths (classified in accordance with the Abbreviated List\* and at different age periods) registered in the week ended 2nd June, 1951, with totals from the first week of the year to date.**

London.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 2nd June, 1951. } Areas and Port Health Districts.**

(See notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

\* See note 3

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

Figures not available.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough; “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are included.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have not been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

Daily Notes

Sunday—Generally cloudy, becoming fair by evening. Continuous moderate to light rain early; heavy at 01—01.15h. and 01.15h. Intermittent light rain morning and mid-day. Fresh SSW—S winds 07.35h.—11.05h., 13.30h.—16h.

Monday—Fair early; otherwise cloudy, but with fair intervals in afternoon. Dew in morning.

Tuesday—Cloudy most of day, but fair periods in afternoon and evening. Intermittent light rain and drizzle morning. Fresh E winds 08h.—10.50h., 15.30h.—18.30h.

Wednesday—Cloudy early, becoming fair by 11h., then fine except for short cloudy period at 15h. Fresh E winds 17.50h.—18.30h., 20.35h.—21h.

Thursday—Fine all day except for fair period at 09h. Fresh to strong E winds 05.25h.—21.20h., 22h.—22.35h.; gale more than 38 m.p.h.:—10.05h., 11.15h., 11.50h.

Friday—Fine all day except for short fair period about 06h. Fresh ENE—E winds 09.50—15.40h.

Saturday—Fine most of day, but fair periods in morning.

The reading of the barometer rose from 998.4 mbs. at the beginning of the week to 1022.5 mbs. at 09.40h. on 30th, then fell to 1013.1 mbs. at 17.30h. on 2nd, and rose to 1015.0 mbs. by the end of the week.

Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ending 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough; “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics <i>see</i> the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January. Death rates from Tuberculosis and Cancer, Maternal Mortality and also Neo-natal Mortality—about the end of April.

## Smallpox

There were no deaths from smallpox registered during the month of April.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Mar. 3	Mar. 10	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28	May 5	May 12	May 19	May 26	June 2	June 9
Year: 1951	29,154	29,067	31,337	27,813	31,268	28,800	22,644	19,025	18,006	18,310	19,929	18,381	19,189	15,630	14,746
1950	4,684	5,476	5,577	5,716	6,307	5,487	7,888	6,805	6,380	6,317	7,278	8,828	9,354	10,075	10,712
1949	18,619	17,305	16,275	15,307	15,819	14,724	13,066	13,514	11,436	9,217	8,363	8,478	9,583	9,773	9,249
1945	22,480	25,049	25,266†	25,507	22,183	22,599	20,342	15,901	16,023	13,139	12,412	14,126	11,408	10,455	8,463
1943	19,355	20,008	19,511	19,663	19,650	18,134	16,859	13,667	13,204	10,149	8,149	8,322	7,470	7,729	6,845

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.*

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

\*\* Return not received.

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 9th June, 1951. } Areas and Port Health Districts.**

(See notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.

	Scarlet fever.	Whooping cough.	Diphtheria.	Measles, excluding rubella.	Acute pneumonia (primary or influenzal).	A	B	Meningococcal infection D	Paralytic E	Non-paralytic F	Infective G	Post Infectious K	Typhus fever. H	Relapsing fever. I	Continued fever. (London only). J	Dysentery. L	Ophthalmia neonatorum. M	Puerperal pyrexia and Puerperal fever. N C	Smallpox. O	Paratyphoid fever. P	Typhoid fever. R	Food poisoning. S

\* See note 3.

Notes: (1) Broadly, the whole of the civilian *working* population aged 15 and over can now qualify under the National Insurance Act for sickness benefit without limit of income, including not only those employed under contract of service but also the self-employed. Only comparatively small sections of the working population are excluded, the most numerous being those employed married women who elect not to be insured in their own right.

(2) The National Insurance (Industrial Injuries) Act applies, broadly speaking, to all civilians working for an employer under contract of service or apprenticeship, corresponding closely with the class of "employed persons" under the main scheme.

(3) The weekly averages are usually for periods of four weeks, but the months are marked \* when the average is for periods of five weeks.

Daily Notes

Sunday—Fine almost all day except for fair periods in afternoon and early evening. Dew morning and evening.

Monday—Fine early, becoming cloudy in morning and around 18h., otherwise fair. Dew in morning.

Tuesday—Fair most of day, except for cloudy period at 06h.

Wednesday—Fair early and late; fine rest of day.

Thursday—Fair early, becoming cloudy in morning and early afternoon then fair. Fresh ENE-E winds 06.40h. to 07.30h., 13h.—19.20h., 20.30h.—21.50h., 22.10h.—23.50h.

Friday—Fine to fair most of day.

Saturday—Fine early, becoming fair to cloudy. Light showers at mid-day; light to moderate rain early afternoon. Dew in morning.

The reading of the barometer rose from 1015.0 mbs. at the beginning of the week to 1019.3 mbs. by 24h. on 4th, then fell to 1008.3 mbs. by 17.30h. on 9th and rose to 1009.3 mbs. by 24h. on 9th.

Explanatory Notes

The results apply to the civil day, i.e. from midnight to midnight, Greenwich Mean Time. The height of the cistern of barometer is 34 feet above the mean level of the sea.

Observations are taken at 6h. and 9h. A.M., noon, 3h, 6h. and 9h. P.M. The readings of the barometer shown in column 3 (in millibars) and of the air temperature shown in column 6 (in degrees Fahrenheit), are the means of 24 hourly values derived from photographic records.

The average temperature of the air is that derived from an analysis of the observations made at Kew during the 80 years ended 1950. In reading column 7 it should be borne in mind that + indicates "higher" and — "lower" than the average.

The measure of humidity now shown in column 8 is the partial pressure of water vapour (in millibars).

The numbers in column 10, derived from the Campbell Stokes Sunshine Instrument, show the aggregate duration of bright sunshine on each day.

The degree of atmospheric pollution, as measured by the Owen's Smoke Filter, is shown by the maximum, minimum and mean readings for each day (in milligrammes per cubic metre) in columns 12, 13 and 14.

## NOTES

1. General.—The figures in this Return are provisional. Births and deaths (Tables I, II and III) and notifications of infectious diseases (Tables I and IV) are compiled from returns furnished to the Registrar General by Registrars of Births and Deaths and Medical Officers of Health respectively. The sickness and incapacity rates shown in Table V are based on the results of sample interviews carried out for the Registrar General by the Social Survey of the Central Office of Information. The figures of new claims to sickness benefit made under the National Insurance Act and injury benefit under the National Insurance (Industrial Injuries) Act (shown in Table VI) are supplied by the Ministry of National Insurance. Meteorological data (Tables VII and VIII) are supplied by the Director of the Meteorological Office. Many of the tables are prepared and published by virtue of the Registrar General's express powers to make arrangements with other Government Departments and Local Authorities in fulfilment of his statutory duty to collect and publish from time to time statistical information with respect to the number and condition of the people and otherwise to further the supply and provide for the better co-ordination of such information.

2. Definition of areas.—“London”=administrative county of London; “Great Towns”=London, all county boroughs and, in addition, municipal boroughs and urban districts within whose present area there was a resident population exceeding 50,000 at the Census, 1931; “C.B.”=county borough; “M.B.”=municipal borough; “U.D.”=urban district. “Greater London”=aggregate of the city of London and of the boroughs and county districts falling entirely within the area of the Metropolitan Police District as defined in the Police Act, 1946, i.e., an area of approximately 15 miles radius from Charing Cross.

3. Non-civilian deaths are *included*.

4. Births and deaths for Greater London, London and the other Great Towns are those registered in the area and have *not* been allocated to the area of residence.

5. Cause of death assignments (Tables II and III) are provisional, and final figures are compiled annually, those for Greater London, London and the County Boroughs are distinguished separately in Tables 24 and 24A of the Registrar General's annual Statistical Review, Tables, Part I (Medical).

6. Notifications of infectious diseases are the numbers originally notified (late notifications are given at the end of Table IV). The numbers after correction for diagnosis are published in the Registrar General's Quarterly Return and Statistical Review, Tables, Part I (Medical).

7. Summaries of the Weekly Returns adjusted for late returns or corrections are published in the Registrar General's Quarterly Return and final figures in the annual Statistical Reviews.

## NON-WEEKLY STATISTICS

The following additional information relating to England and Wales as a whole is published on this page immediately below this note as soon as available:—

<b>Monthly</b>	Deaths from smallpox—about the fourth week following the month.
<b>Quarterly</b>	(a) Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under 1 year of age—about the third week following the quarter. (For further quarterly statistics see the Registrar General's Quarterly Return). (b) Final forecast of the number of births to be expected in the current quarter and a provisional similar forecast for the following quarter—by the end of the first month of each quarter.
<b>Annual</b>	Numbers and rates of live births, stillbirths, <i>total</i> deaths, and deaths of infants under one year of age—about the third week in January. Death rates from Tuberculosis and Cancer, Maternal Mortality and also Neo-natal Mortality—about the end of April.

## Measles.

Weekly notifications\* of measles in 1951 compared with those in the corresponding weeks in 1950, 1949, 1945 and 1943. (See also Table IV).

Week Ended	Mar. 17	Mar. 24	Mar. 31	Apr. 7	Apr. 14	Apr. 21	Apr. 28	May 5	May 12	May 19	May 26	June 2	June 9	June 16
Year: 1951	31,837	27,813	31,268	28,800	22,644	19,025	18,006	18,310	19,929	18,381	19,189	15,630	14,746	12,139
1950	5,577	5,716	6,307	5,487	7,888	6,805	6,380	6,317	7,278	8,828	9,354	10,075	10,712	8,857
1949	16,275	15,307	15,819	14,724	13,066	13,514	11,436	9,217	8,363	8,478	9,583	9,773	9,249	9,152
1945	25,266	25,507	22,183	22,599	20,342	15,901	16,023	13,139	12,412	14,126	11,408	10,455	8,463	7,890
1943	19,511	19,663	19,650	18,134	16,859	13,667	13,204	10,149	8,149	8,322	7,470	7,729	6,845	6,576

\* Not corrected for revision of diagnosis.

† The number of cases notified in the week ended 24 March, 1945 was, until 1951, the highest since Measles became notifiable in 1940.

**TABLE I.—Births, Deaths (distinguishing Deaths of Infants under 1 year of age) and Notifications of certain Infectious Diseases in the last 11 weeks with totals for the current and the two preceding years.**

(a) London.

(b) Great Towns in the aggregate.

(See notes on page 2).

*Note:—*The deaths are not comparable with notifications if only because a certain number of deaths occur in the Great Towns (e.g., in hospitals) of cases which were notified in areas outside the Great Towns.

\* These Great Towns do not comprise the whole of Greater London and the figures given do not aggregate to Greater London total.

† The numbers of Deaths are provisionally corrected by transfer to place of normal residence, if in Scotland. Deaths of non-civilians are included.

‡ The numbers of Births and Deaths are provisionally corrected by the exclusion of all non-residents in the case of Belfast and of those occurring in institutions in Dublin. Returns of stillbirths are not made for these towns.

§ Except for London, this column includes all deaths where the term "Influenza" is mentioned on the certificate e.g., influenzal pneumonia.

¶ Change in boundary, 1st. April, 1951

\* The Abbreviated List numbers are those set out on pages 361-2 of the International Statistical Classification of Diseases, Injuries and Causes of Death, 1948. The further breakdown indicated by small letters after the numbers is one used in the General Register Office; the corresponding numbers in the full List are shown in brackets after the description of the causes.

**TABLE IV.—Notification of Infectious Diseases in } England and Wales, Administrative  
the week ended 16th June, 1951. } Areas and Port Health Districts.**

(See notes on page 2).

*Note:*—Where no return has been received an asterisk \* is inserted in the columns. Totals shown against the names of counties include any associated county boroughs. Letters in the "Others" column denote the diseases so lettered in the summary headings. Puerperal fever is included with puerperal pyrexia except in London.
